Products

Cabinet Doors - We produce a wide range of solid wood cabinet doors (standard and mitered, MDF routed doors and slab-plywood doors). Applied mouldings are available for many of our doors as well.

Passage Doors - We produce high end interior solid wood and MDF passage doors to your specifications.

Mouldings - We produce hard wood mouldings in all domestic wood types and some exotic species. We stock hard wood mouldings in maple, poplar, and other species. We make custom MDF mouldings to your specifications.

Kitchen Components - **We produce and stock 5/8" melamine kitchen** components in white and classic maple melamine. Our system is designed to be as flexible as possible for the contractor who can design and install custom kitchens.

Hardware - We stock cabinet door European hinges, drawer slides (accuride and hettich), and a variety of items for basic assembly.

Custom Machining - We specialize in high production, including CNC routing and drilling, sheet goods cut to size, planing solid lumber, straight line ripping, laminating, sanding and custom mouldings. We also welcome custom design orders or other wood types. We feature fast turn-around times. Please inquire.

Pricing

We have provided pricing for selected sizes and styles of oak doors for reference purposes only. Customers are encouraged to contact our order desk for a written quote. Catalogue prices are subject to change without notice. Quoted prices will be honored for 30 days. Wood Factors (upcharge by wood type)

Species	Mark up
African Mahogany**	100%
Alder (Clear or Knotty)	20%
Beech	40%
Cherry	54%
Hickory	20%
Knotty Pine	20%
Maple (Brown)	28%
Maple (Brown) MDF Panel	22%
Maple(White Hard)	35%
Oak	Base Price
QTR Sawn Red Oak**	Quote
QTR Sawn White Oak**	230%
Rift Cut (Vertical Grain) Fir	40%
Rift Cut Red Oak**	70%
Rift Cut White Oak**	115%
Walnut	90%
White Oak	76%

** Not available in plywood panel doors
(ie: MW1, MW2, MN1, MS1, etc.)

Payment Terms

We accept cash, debit card, VISA, MasterCard or Company Cheque (must be personalized with company name, address and phone number). Cheques that are returned NSF will be subject to a service charge of \$45.00. Advance full payment is required with all non-account customers.

Order Changes & Cancellations

There will be a minimum \$35.00 revision/cancellation charge, or the following charges will be applied: 33% of item price after the first day, 66% of item price after the second day, 100% item price after the third day.

Pick-up & Delivery Service

All orders must be picked up or have delivery scheduled within 90 days after completion. Any order beyond this 90 day period may become property of Multiwood Inc . We offer delivery within the city of Calgary and to outlying communities including Okotoks, Cochrane, Airdrie and Chestermere Lake.

Wood Specifications

Multiwood is proud to produce fine products from a wide variety of wood species. Red oak, maple, pine, cherry, alder, walnut and hickory are some of the many species we work with. The characteristics of each species are unique, and equally as unique is each tree. Due to genetic differences, soil, moisture and weather, the wood we get in any one species varies widely. These natural variations - "God's Fingerprints" - give wood the beauty that we have learned to appreciate. It is impossible to guarantee that all pieces used will have uniform colour, and be free of these natural marks. Knotty wood is available in most species. Please Inquire!

Alder - Alder is separated into clear and knotty alder

Clear Alder Sound pin knots up to 1/8" may appear on the face of the door, and up to 3/16" on the back. Colour Streaks up to 1/4" by 2" are acceptable on the face of the door, and the back.

Knotty Alder Sound knots of any size are acceptable, and see through holes in knots are allowed, if they are small. Color Streaks are acceptable, if there are no cracks or splits in the streak and it is sound. No pitch pockets are acceptable.

Note: Some panels may have limited or no knots due to the nature of the wood. Whether a door is "too knotty" or "not knotty enough" is subjective, and cannot be warranted for replacement.

Cherry - American Black Cherry is used for all of our cherry products. (the wood is named for the colour of the berry). The heartwood is colour matched and a reasonable grain match is made. The natural characteristics of cherry include mineral streaks, gum pockets, figured grain and pin knots. Pin knots up to 1/8" may be found on the face for the doors and up to 3/16" on the back. Mineral streaks and gum pockets may be found up to 1/8" by 2 1/2" long on the face of the door, gum pockets of any size and quantity may be found on the back of the door, as long as there are no cracks or splits in the streak. Sap can be included in the face on request, and may be present on the back as long as it is sound.

Hickory - Northern True Hickory is used for all our hickory products. Heartwood and sapwood is always mixed in various degrees. This results in extreme colour and grain variation which give it a rustic look. Sound pin knots up to 1/8" may appear on the face of the door, and up to 3/16" on the back.

Knotty Pine - Eastern White Pine, or Furniture Pine, is used for our pine products. It is the preferred pine; due to its low pitch content. The doors will have knots in the panels but may, or may not have knots in the stiles and rails. Knots may extend to an edge of the stile and rail, but not the entire piece, and can be as large as 3" in diameter. Cracks in knots that penetrate the thickness of the door are allowed. Pitch and mineral streaks up to 1/2" wide by 6" long may be found on the face of the door. Note: Some panels may have limited or no knots due to the nature of the wood. Whether a door is "too knotty" or "NOT knotty enough" is subjective, and cannot be warranted for replacement.

Maple - Sugar Maple, also known as White Hard Maple is used for all our maple products. We separate our maple products into two categories: Maple, and Brown Maple. This is based on a combination of colour and natural defects.

Maple will be all white wood face. Mineral streaks 1/8" by 3/4" long may occur on the face of the door and 1/4" by 3" on the back. Some Brown or sugar tracks (heartwood) may occur on the back of the door. Sound pin knots up to 1/8" may appear on the face of the door, and up to 3/16" on the back. Some color streaks of 1/8" by 2/4" are acceptable on the face, and some brown or light green color streaks are acceptable on the back.

Brown Maple - will include heartwood and any natural defects, and miscellaneous sound defects, in any quantity and size. Brown and dark streaks may occur on face and back in any size and shape.

Red Oak - Northern red oak is used for all our oak products. It is the most colour consistent of all red oak. We will make a reasonable colour and grain match. Colour variations are considered normal. Excessive mineral streaks are not allowed. Mineral streaks up to 1/8" by 2" may be found on the face of the doors and on the backs. Sound pin knots up to 1/8" may appear on the face of the door, and up to 3/16" on the back. Sapwood up to 1" is acceptable on the back of the door, as long as it does not show through the face.

Walnut - Sound pin knots up to 1/8" may appear on the face of the door, and up to 3/16" on the back. Sapwood up to a width of 1" is acceptable on the back of the door, as long as it does not show through the face.

Our doors are sold unfinished and should not be left any length of time before finishing. Color changes will occur when wood is exposed to light and air. Finishing will slow down the process but changes in color will still occur. Unfinished wood can change color rapidly especially in the case of cherry. It is recommended that cherry be kept covered until you are ready to finish. Care should be taken when storing doors prior to finishing, or installation. Avoid Extreme Cold, Heat and Humidity

Square

Double
Eyebrow

Square Side x Side
Recommended 28" and wider

Cathedral Side x Side
Recommended 28" and wider

Eyebrow Side x Side
Recommended 28" and wider

All Mitered
Doors

Double panel and triple panel doors are recommended to prevent warpage on larger doors. Doors 42" or higher should have a double panel, doors 62" or higher should have a triple panel. Doors over 26" wide should have side by side double panels.

1A2 (1 Panel above 2)

2A1 (2 Panels above 1)

Double Panel with
Cathedral top

Recommended
over 42" high

Triple Panel with
Eyebrow F4 Frame

Recommended
over 62" high

Quadruple Panel

Recommended
over 80" high

Double Panel Side x Side
with F4 Frames

Triple Panel Side x Side
with Cathedral Top

Wainscoting (G1S) - Advise the number of panels required. Individual panels should be no wider than 24 inches. Overall width should be maximum 108 inches, anything over this requires a special quote

Please note - These are only examples, as there are many combinations of Double, Triple, Quadruple Panel and Side by Side Doors available by selecting different shape and frame options. Also, the location of middle rails can vary according to your preference. Not available in the Miter Door style. **No warranty for doors over 50" high or 28" wide.

French Frames

Custom Size Wood Door Pricing

Pricing Custom Height - Using door size that is closest to your door size, but smaller, find the square inch price for the right style of door. Now multiply the height by the width by the square inch price listed, rounding up dimensions to the next full inch.

Pricing Custom Width - Calculate the same as Custom Height adding 15% to the cost.

Please Note: The calculations above are for estimating purposes only, contact the order desk for an exact price.

MH mitered door styles are 30% more than their respective standard door styles.

MT, ML and MN mitered door styles are 25% more than their respective standard door styles.

MG, MJ, MK, MR and MX mitered door styles are 20% more than their respective standard door styles.

V-Grooved and Beaded Panels add \$7.00 per door.

V-Groove through Stile & Rail add \$7.00 per door.

Solid Slab Drawer Pricing

DFB (Solid Slab) Pricing

Multiply length by price. Prices are based on Oak. Multiply price shown by wood factor (see page 2) for other species.

Width	Price per Lineal Inch	Width	Price per Lineal Inch
up to 4"	0.54	up to 9"	1.25
up to 5"	0.67	Up to 10"	1.39
up to 6"	0.82	Up to 11"	1.53
up to 7"	0.96	Up to 12"	1.68
up to 8"	1.10	Up to 13"	1.82

Frame Pricing

To determine a frames price, start from the same style of flat panel door and add the up-charge cost. Frame styles illustrated on Page3.

Type	Charge
F	\$0.00
F4	\$15.27
F6	\$22.39
F8	\$32.56
F9	\$36.63
F10	\$43.75
F12	\$50.88

Frame pricing is based on Oak, MDF or Knotty Pine. Please multiply by wood factor to determine pricing for other material types.

Cabinet Door and Drawer Height Combinations

Cabinet Door and Drawer Heights					
Box height	1 Door	1 Drawer	1 Door	3 Drawers	4 Drawers
384 (15 1/8")	382 (15 1/16")				
672 (26 7/16")	670 (26 3/8")				
704 (27 11/16")	702 (27 5/8")	189 (7 7/16")	510 (20 1/16")	189 (7 7/16") 2-254 (10")	
768 (30 1/4")	765 (30 1/8")	189 (7 7/16")	574 (22 9/16")	189 (7 7/16") 2-286 (11 1/4")	4 - 189 (7 7/16")
800 (31 1/2")	797 (31 3/8")	189 (7 7/16")	606 (23 7/8")	189 (7 7/16") 2-302 (11 7/8")	1-189 (7 7/16") 3-200 (7 7/8")
1088 (42 13/16")	1086 (42 3/4")				
1376 (54 3/16")	1374 (54 1/8")				
2048 (80 5/8")	2046 (80 9/16")				

Variations in Door and Drawer heights are possible in increments of 32mm (1 1/4"). If you want to reduce drawer height by 32mm (1 1/4"), add 32mm (1 1/4") to door. This will allow for the standard drilling of the doors to line up with the components.

	Box Height	Drawer	1 Door
Standard	800 (31 1/2")	189 (7 7/16")	606 (23 7/8")
		minus 32 (1 1/4")	add 32 (1 1/4")
e.g.	800 (31 1/2")	157 (6 3/16")	638 (25 1/8")

PRODUCT WARRANTY

Products manufactured by Multiwood Inc. (hereinafter referred to as Multiwood) are warranted by Multiwood to be free from failure resulting from defects in material and/or workmanship, within the following limitations:

1. Multiwood agrees to repair or replace, at its option, any part of its own manufacture which proves to be defective, within six months, provided the products have not been subjected to unreasonable abuse or damage and have received reasonable care, commencing from the date of manufacture, provided such parts are returned prepaid to our factory and upon return, found to be defective in material or workmanship. Items that are not returned to our factory (prepaid) for our direct inspection/evaluation will not be warranted.
2. Multiwood will only repair or replace defective product in its original, unfinished state. Once it has been altered (including, but not limited to, chemically treated, painted, stained or lacquered) the warranty will become null and void (excepting structural failure).
3. Natural characteristics of the wood (including but not limited to knots, discoloration, mineral streaking, burl and grain pattern) will not be considered a defect unless specified on the original order. REFER to Wood Specifications
4. Subjecting products to excessive heat, cold or humidity, improper or incorrect installation of hardware or the improper application of finish is sufficient grounds for disqualification under this warranty.
5. Any component or part, whether manufactured by Multiwood or any others, which show signs of abuse, neglect, accident, improper handling, unauthorized alteration or use in such manner as was not intended shall be excluded from any warranties, expressed or implied.
6. Any part that Multiwood considers to be a maintenance item shall be excluded from any warranties, expressed or implied.
7. All defective parts must be returned to our factory with all transportation, customs and duty charges prepaid.
8. Any warranted replacement parts/products from Multiwood or other manufactures are shipped FOB (collect) from each respective factory.
9. All warranty work to be performed by others must be pre-approved in writing by Multiwood.
10. Multiwood shall not be held liable for any extraneous charges, damages, delays or lost production caused by such defects in material and/or workmanship as described above. The liability of Multiwood under this warranty is limited to the repair and/or replacement (at our option) as originally supplied, as set forth above, providing the claim is made within the above noted warranty period.
11. Any requests to alter our normal construction specifications are not guaranteed.
12. **Multiwood will only accept warranty claims on warped wood doors if the warp is more than 1/16 per 18" of height for doors under 24" wide, and 3/32 per 18" of height for doors over 24" wide, (1mm per 300mm of height for doors under 610mm wide, and 1.5mm per 300mm for doors wider than 610mm.). In ALL cases the maximum warranty heights are 42" (1067mm) or 50" (1270mm) with a cross rail and 28" for width.**
13. There are no other warranties of any kind, expressed or implied.

Pertinent to Wood Mitered Doors:

It is an inherent fact that wood will expand and contract with changes in weather and humidity. Almost all of this movement will occur across the grain. The width of the piece of wood will increase with an increase in humidity or decrease with a decrease in humidity. Mitered doors will react the same way. As the wood in a mitered door takes on moisture the joint will tend to open up on the outside edge of the door. A gap of .5mm is normal during high humidity conditions. If a mitered door loses moisture it will tend to open on the inside of the miter. Under normal humidity conditions mitered doors may open up .5mm. This will not be considered a warranty condition. This movement of wood is beyond our control and is an expected change.

This warranty is expressly in lieu of and supersedes all other warranties, expressed or implied, written or oral, including without limitation any warranties of merchantability or suitable for a particular purpose or application.

Warranty Administration - Please provide invoice for warranties

All warranty claims must be made, in writing, to: Multiwood Inc. 11580 40th Street South East Calgary, Alberta T2C 1N9 within 10 days of the manifestation of the defect. Multiwood's obligation on warranty claims and Buyer's Remedy therefore shall be exclusively limited to, at Multiwood's option, any one of the following:

1. Replacing at Multiwood's factory any part proved to be defective,
2. Remedying or repairing such defect, or
3. Refunding the original purchase price in the form of a credit to be applied to future purchases.

Multiwood may require the return of (or upon Multiwood's prior written consent, Buyer may return) the alleged defective part, transportation charges to be paid by Buyer, before Multiwood recognizes any claim for defective workmanship or material. If the claim is not recognized, Buyer shall reimburse Multiwood for Multiwood's expenses in investigating the claim. Buyer shall pay travel and living expenses for any warranty work Multiwood determines must be undertaken at Buyer's site.

Limitation of Liability

Multiwood's liability under this warranty will be limited to replacing or repairing the defective product at our option. In no case will Multiwood's liability exceed the contractual value of the order. Buyer's exclusive remedy for any loss or claim resulting from the use or inability to use this product shall be repair or replacement of the defective product, or, at the option of Multiwood, return of the product to Multiwood and refund of the original purchase price.

Finishing Maple

Wiping stain is not recommended on Maple. Multiwood will not be responsible for any colour or wood variations/defects on maple products when wiping stain has been used.

MultiWood Dovetail Drawer Box

How to Order / Confirm Order

1. What drawer slides are you using?
(do you require BLUM clips?)
